

Join us for the 2018
Mercer
Science & Engineering **Fair**

at *Rider University* – Hosted by the *Mercer Science and Engineering Club*

If you are in grades 4 through 12 and attend school in Mercer County, NJ then you are eligible to compete in the annual **Mercer Science and Engineering Fair**. The competition is free to all students and held annually in March.

You can start your project now or use one you did this summer. The competition covers all aspects of **science, technology, engineering and mathematics (STEM)**. It is a great way for individual students to highlight their work.

The competition is divided into three groups so you compete with students in your age group. The groups include:

- Elementary: grades 4 and 5
- Junior: grades 6, 7 and 8
- Senior: grade 9 through 12

The Grand Prize winner of the Senior Division receives a chaperoned **all-expense paid trip** to compete at the annual **Intel International Science and Engineering Fair (ISEF)** held in May. The top 10% of the Junior Division (grades 6-8) move on to compete in the **Broadcom Masters Competition**. Our students have gone onto ISEF and the Broadcom Masters competitions where they earned additional awards. You can too!

Important Dates:	Sunday	March 11	Project set up for all participants
	Monday	March 12	Senior Division interviews
	Tuesday	March 14	Award ceremony

Get more information and register online at <http://MercerSEC.org>.

You can contact Bill Wong at president@mercersec.org or 215-736-2449. Teacher and administrator inquiries are welcome. Our fair has been supporting students' scientific endeavors for over 60 years! Come join us.
